Map of Average rainfall  
over Victoria

text

Graph of  
net rainfall  
over time

text

text

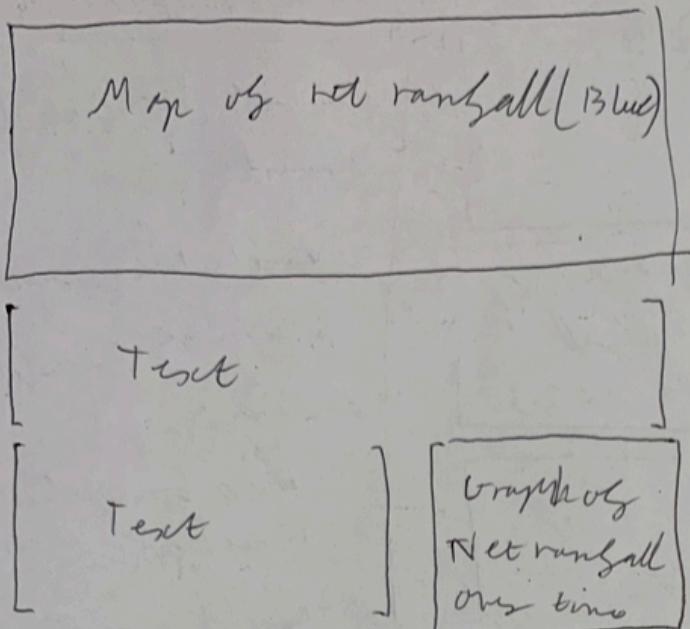

Graph  
of rainfall  
for each  
north average

Map of Net rainfall  
for Victoria

- > very clear and readable
- > good for nongeographical audience
- > Sighs lines maintained over article to see the main graphs as nice goes on
- > starts and concludes with map overall tells a story

- > all tells a complete story of the rainfall over time, and how it affects the regions of the state
- > start with the general and end on the specifics, can scroll through the years

Title

Title => Potential design?

Num => sheet 3

ID => 33880131

-> data is presented  
in readable manner  
for a professional  
audience  
-> as it would be  
in a newspaper article

Tells the story of how the  
rainball is affected by both  
space and time, ~~and this~~  
This gives  
a general broad look at all  
the data without going into  
 specifics

-> could include more graphs and  
 iconography

Title

Map of rainfall in 2023

Title => Potential designs<sup>3</sup>  
Num => sheet B  
JID => 33880131

text

graph of  
rainfall  
over 2023

average rainfall over the  
state and difference from 2023

text

text

graph  
of 2023's  
deviation  
from avg

- > not as good styling
- > site still good for proposed audience
- > also good for newspaper
- > could easily have it scrollable over all the years so you can see trends
- > could even have a graph with each year difference from mean

- > Story homes in on the difference of the recent years with average
- > could do this rather showing ~~all~~ all the years against the most recent 10
- > ~~Story can also be on~~
- > Story starts with context and moves onto the ~~most~~ general stylings later

Title

Map of rainfall & (average)  
over victoria monthly

text

graph of  
ret rainfall  
over time

text

graph of  
year by year difference  
from mean for rainfall

text

graph of  
average  
rainfall  
per month

graph of monthly difference  
from mean for rainfall

→ Story is cohesive, starting with the big picture and moving onto the smaller more gritty of it

→ discusses how the rainfall effects

Title  $\Rightarrow$  Final design

Num  $\Rightarrow$  sheet 5

ID  $\Rightarrow$  33880131

- > clear professional setting
- > like a newspaper article might be
- > combines ideas from 1 and 3 mostly
  - > graphs placed along the sightline to ensure readability
- > text to get point across and in a simple style to ensure it is always good
